FOR IMMEDIATE RELEASE

The Treanor Law Firm Obtains Emergency Freeze of As Much As \$280 Million in \$LIBRA Cryptocurrency Scam

The Order also Directs Circle to Freeze \$58 Million in USDC on the Solana Blockchain

New York, NY – May 30, 2025 – The Treanor Law Firm, a boutique law firm founded by a former federal prosecutor and specializing in cutting edge civil litigation against the perpetrators of crypto fraud schemes, announces that it has obtained a temporary restraining order freezing as much as \$280 million in proceeds of the sale of the cryptocurrency known as \$LIBRA. As alleged in Court filings in *Hurlock v. Kelsier*, the defendants falsely promoted \$LIBRA as an investment opportunity in the Argentine economy, going so far as to convince Argentina's President to promote the token, and defrauding an estimated 75,000 investors. The order represents a crucial victory for victims of the \$LIBRA cryptocurrency fraud and helps to ensure that funds will be available for victims of the scam if the litigation is successful.

The ruling, made public yesterday evening by the Honorable Jennifer L. Rochon of the U.S. District Court for the Southern District of New York, also directed Circle Internet Group to freeze approximately \$58 million in USD Coin (USDC) on the Solana blockchain held in cryptocurrency wallets traced directly to the alleged fraud—an order Circle has already executed.

"This is a critical first step toward securing justice for those who purchased \$LIBRA based on fraudulent claims that it would support Argentina's economy," said Timothy J. Treanor, managing principal of Treanor Law PLLC and a former federal prosecutor. "The Court's order helps ensure that there will be actual funds available to compensate the victims of this scam as this litigation proceeds."

Treanor Law PLLC, alongside co-counsel Burwick Law, is pursuing a proposed class action against those responsible for the \$LIBRA scheme.

The Court's \$58 million freeze order directed at Circle is believed to be the largest ever obtained by a private party that applies to the issuer of a stablecoin, effectively preventing defendants from accessing these funds while the case proceeds. The Court has scheduled a preliminary injunction hearing for June 9, 2025, should defendants seek to challenge the restraining order.

Victims of the \$LIBRA token scam who wish to understand the impact of this order or join the potential class action should contact Treanor Law PLLC immediately:
